  Associate of Science, Mathematics, Spring 2015

- Pasadena City College
  Associate of Science, Physics, Spring 2015

Technologies and Skills
JavaScript, HTML5, CSS3, Python, Java, Node.js, Express.js, Git, Github, Heroku, Netlify, npm, Trello, Postman, OOP, Algorithms & Data Structures

Summary
I am an individual who loves helping others by solving problems that are too difficult. It is because I love solving problems, which made me decided that I wanted to pursue a career in software development. I want to continue to help others and solve their technological problems, by providing them with the best software I can create.

Experience

IT Generalist – April 2021 – Present
Kuwait Culture LA – Los Angeles, CA
- I help maintained KCOLA infrastructures and assist other departments with their technical needs.
- I helped clean up KCOLA website by updating their codes so that certain features that the company wanted are deleted, updated, and position somewhere else.

FullStack Engineer Consultant – September 2019 – April 2020
Talent Path, LLC – Houston, Texas
- I was trained for 3 months and was taught web development technologies.
- I became a FullStack Engineering consultant for Sysco Whole foods
- I was put int a team that focuses on the MERN Stack Architecture.
- I supported Sysco Foods, by suggesting and changing minimal lines of codes in their MERN Stack.
- The Pandemic began came and I was let go.

Test Specailist – January 2019 – September 2019
Cruise Automation, LLC – San Francisco, CA
- Troubleshoot AV software in varied and dynamic environments.
- Validate the performance of new and existing hardware including sensors and new vehicle platforms.
- Perform special projects as requested by various Cruise team.
- I was promoted from Test Operator in Training, to Test Operator and then to Test Specialist.
- As a Test Specialist, I did both beta and alpha testing as well as train new Test Operator Trainee in Cruise technologies as instructed by my coordinators.

IT Field Engineer - August 2018 – December 2018
Insight Global, LLC – Los Angeles, CA
- Contractor for Hewlett Packard (HP), for Bank of America.
- I replace over 50 workstations per week as well as peripherals.
- I managed the software updates on BofA's Windows Server.
- I refresh and restore 12 BAU locations within my given vicinity during the time frame of the contract I had with HP and BAU.

Personal Side Projects

Portfolio | Personal Portfolio Website
- I created a personal portfolio website to showcase my skills and display information about myself, such as contact details, lists of side projects, and more.
- This personal portfolio will constantly be updated as I improve my skills as a software developer and as well as creating more side projects to be presented.
